

## We're expanding our telehealth hours

After-hours calls? No problem.

While grocery stores and restaurants are limiting their hours for your safety, we're expanding ours to continue to serve you when you need us most. We know you might be helping teach your kids at home, entertaining the whole family and working from home, so we're making it easier for you to get the care you need.

We're staying open until 8:30 p.m. Monday through Friday so our physicians can visit with you through telehealth. If you're feeling under the weather, need a medication refill or just need to speak with a physician, we can see you after our normal hours! Telehealth appointments are allowed by most insurance plans, including Medicare and Medicare Advantage. Do you have questions about telehealth? [Here's a guide](#) to the most frequently asked questions.

If you need to schedule an appointment, you can call (972) 599-9600 or click [here](#) to fill out your appointment information.
