

## Introducing pricing transparency

Everything is bigger in Texas: our football teams, our state fair, and unfortunately, the number of people who are uninsured. In 2018, [Texas led the nation as the least insured state with 17.7% of residents being uninsured, an increase from 17.3% the year before.](#)

At Village Health Partners, we strive to provide patients with accessible care – whether you have insurance or not – so we'd like to introduce our [pricing transparency!](#)

Just because you don't have insurance doesn't mean you should expect surprises when you get your bill. We're committed to transparency in all aspects of your healthcare journey, including what you're paying for it. **You can find a list of our most common services and their costs [here](#).**

And, in case you didn't know, we offer a 30% discount on most major services, exams, tests and screenings for cash-pay patients without insurance to make seeing your physician more accessible than ever!

*Are you ready to meet with a [physician](#) who is committed to a patient-centered approach? Find your cost [here](#) and then call (972)599-9600 or [click here](#) to schedule an appointment.*
